

Don's Dowsing Digest

September 2011

Hi everyone,

Your hard-working committee met last Monday and agreed the Dowsing Programme for the next few months.

I have accepted that I must concentrate on completing the reports on the Roman Roads discovered thus far so that I can show other groups our achievements.

This will be carried out on some Thursday's when I have more time to dedicate to the project - other members will be very welcome to help me out. One area of study that does need completing is at the New Forest Centre at Lyndhurst where there is a stack of records on the Roman Roads of the New Forest. These records need to be studied and photo-copied or written down and added to our research programme, if you can help please let me know.

The last few days I have been producing the itinerary for the forthcoming tour of the West Country, also a presentation for the BSD Annual Conference at Cirencester which takes place over the weekend of 23rd – 25th September so I have been quite a "busy bee".

Please see below the proposed dates for all of the HADS meetings and suggested dowsing and study days. I do hope that you can attend some of the planned events and I look forward to meeting you all again soon.

Thank-you so much for making HADS such a successful group, our reputation is spreading across Britain!!

Kind regards to all

Don
