

HADS Trip to St. Cross

On Sunday 13th March 2022 the sun shone for our visit to St. Cross.

21 members came out to enjoy the history, the dowsing, each other's company and a bit of archaeology!

Don outlined some of the history of the site and set those who had dowsed before the task of plotting out where some of the original buildings used to be. We were delighted to welcome some new members who were unfamiliar with the site. Don spent some time with them exploring the dowsing possibilities.

Finally, the whole group went to the site of one of the trenches dug by WARG members in 2008 where Don explained what had been found.

After the restrictions of the past two years it was brilliant to be back out in the field exploring the rich heritage that surrounds us locally. Thanks to Don for organizing it, and thanks to our members for turning up to enjoy it!
