## April 2016 Newsletter

Dear Members

I'm writing with warm spring sunshine coming through my window and as always at this time of year we hope for plenty of opportunities to visit archaeological sites and perhaps take part in excavations. The last two lectures in our winter programme, about excavations on an Anglo-Saxon royal manor at Lyminge, Kent (March); and last week on the Neanderthals in ice-age Jersey gave a foretaste of the possibilities ahead, and we are also planning a couple of outings this summer.

Meanwhile our next monthly meeting will be the Annual General Meeting on 10<sup>th</sup> May, 7.30pm at St Joseph's Hall, Bugle Street SO14 2AH. The Notice and Agenda are attached herewith, and we look forward to refreshments after the formal business, and to Dr Andy Russel telling us about the work of SCC Archaeology Unit. Please see Anna's article below about our need for new committee members – Anna has much less time for the day to day role of Hon Secretary now she's commuting to Reading every day!

In a recent posting I mentioned that membership subscriptions become due at our AGM, and the current rates for different types of membership are given on the last page of this newsletter. I'm grateful to those members who have already paid their subs, which can be paid direct to the Treasurer at any meeting or by post to 346 Hill Lane SO15 7PH, (cheques payable to Southampton Archaeology Society, please). Anyone who pays by Standing Order (SO) to our TSB account should ensure they have changed the name with their bank before 15<sup>th</sup> May, when most orders are paid. You may be able to do this without signing a new SO authority, but in case your bank should require a new form, or you wish to start paying by SO I enclose a form with this mailing.

During the summer we have two outings planned: the first will be on Tuesday 14<sup>th</sup> June when we've persuaded Matt Garner to lead a Walking Tour around Hamwic, starting at 6.00pm from the Archaeology Unit, 18 Melbourne Street SO14 5FB. The walk will take about an hour and a half and there will be a small charge of £2 per person, and members are welcome to bring guests. On Saturday 17<sup>th</sup> September we will arrange another visit to the Quarr Abbey excavations, near Ryde on the Isle of Wight, and further details will be included in the next newsletter.

With best wishes

**Sarah**

## Join the SAS committee and help to shape your Society.

It's AGM time again - the time when Society Committees everywhere try to persuade their members to step forward and share in the behind the scenes work that's needed to organise your monthly meetings. Every year we ask people to join the Committee and someone usually comes forward through election on the night or, more usually, by co-option after the AGM. As a General Committee Member you'd attend meetings (about six during the year) and help to decide what SAS can offer members throughout the year, help to run our evening meetings and perhaps take on a task such as publicity or making new people feel welcome at meetings. General Committee Members might stay for years or just a couple of seasons but

sometimes it's more difficult to get people to take on Officers' tasks. This can mean that people stay for years as Officers because there's no-one to take over.

This year, as well as General Committee Members (who are always welcome) we're particularly asking members to volunteer for two jobs – Hon. Secretary and Treasurer. Sarah Hanna announced her intention to stand down from her Treasurer's role a few months ago – so she's given lots of notice! She intends to stay on the Committee and is standing for Vice-Chair, and will also carry on the excellent job of producing the newsletter. The SAS accounts are straightforward and she'll be around to support someone into the role so if you've been a book keeper, accountant or are simply good with figures please offer your expertise to the Society,

Over the years the Hon. Secretary's job has been divided up so the main duties now are organising the lecture programme, liaising with speakers, creating formal documents such as the Annual Report and will also include contacting members and the Committee. The Committee Minutes are already taken by a General Committee Member and Anna Welch (who has now been Hon Sec for more years than she cares to think about) is prepared to carry on setting the lecture programme for the time being, if necessary. If you have an admin background or just think you'd like to give it a go please get in touch. The job of Membership Secretary has been done by both the Secretary and Treasurer over the years but could be done as a stand-alone role or a 'job-share' by a General Committee Member.

We'll struggle without either a Treasurer or Secretary so please give us a bit of your time to ensure SAS carries on and goes from strength to strength.

**Thank you**

## **Plans for a new natural play area on Southampton Common**

Southampton City Council is planning to redevelop the play area on the Common, incorporating the site of the present Paddling Pool and they propose to construct a Nature Play Space there, commissioned from award winning landscape architects Davies White Ltd. This is currently under process of consultation with members of the public, local residents and schools to further develop the design proposals, before applications are made for planning permission and to the Secretary of State. For more information on the project see the website, [www.davieswhite.co.uk/SouthamptonCommon](http://www.davieswhite.co.uk/SouthamptonCommon), where you can give your own feedback. You may also contact the City Council's Development Co-ordinator (Play), Tony Hill on 023 8083 2267 or write to him at Civic Centre, Southampton SO14 7LY.

It is expected that once agreed the Play Space will be installed in time for the summer holidays 2017. Part of the preliminary work is likely to include an archaeological evaluation/assessment which could involve survey and some limited investigation, and Dr Andy Russel hopes this can be organised as a community archaeology exercise. In that case, members of Southampton Archaeology Society, Southampton Young Archaeologists' Club and members of the community would be invited to volunteer, and we'll keep you informed about the progress.

## Community Excavation at Quarr Abbey, Isle of Wight

I make no apologies for featuring the Quarr Abbey site again, and we enjoyed our visit last year so much that Southampton Archaeology Society plans another visit on the Open Day, Saturday 17<sup>th</sup> September.

**Matt Garner writes:** “The second season of the community excavation on the site of the medieval abbey took place in September 2015, as part of the ‘Two Abbeys Project’ supported by the Heritage Lottery Fund. The team included people from Southampton City Council Archaeology Unit, the Isle of Wight Natural History and Archaeological Society (IWNHAS), the IOW Young Archaeologists’ Club, and archaeology students from the universities of Cardiff, Southampton, and Winchester. Historic England issued Scheduled Monument Consent for the work. IWNHAS members have recorded abbey remains and carried out resistivity surveys.

The abbey was founded in 1131, defended by an enclosing wall with gun ports later in the 14<sup>th</sup> century, and closed in 1536. Percy Stone excavated part of the site (Excavation Field) in 1891. Several fields have been surveyed since 1997 by the University of Southampton using techniques including resistivity and magnetometry. Seven trenches were excavated in the Excavation Field, mostly two metres square and targeting geophysical anomalies.

The medieval features were oriented north–south and east–west. Building materials included West Country slate, local limestone rubble, Purbeck Marble architectural elements (see pictures *left*, and *below*), lime mortar, wall plaster, floor and hearth tiles, roofing and ridge tiles, lead window comes and glass. Fragments of Kimmeridge shale indicate its possible use in building, and other medieval finds included a sparse scatter of pottery sherds. One trench in the north-west area revealed a north–south stone-lined conduit or drain. A limestone rubble wall in the north-east area was aligned north-west to south-east and contained post-medieval brick fragments. Soil layers around the wall revealed evidence of post-medieval occupation including bottle and window glass, roof tiles, clay pipes, iron nails, redware pottery, a

musket ball, bird and mammal bones, and oyster shells.

The work showed that archaeological remains survive well in the Excavation Field, including evidence of post-medieval occupation. Medieval features that matched resistivity anomalies were found in several trenches, but we found a stone-lined drain and two walls which had not been detected by resistivity.”

Fieldwork in 2016 will take place between Tuesday 6<sup>th</sup> and Saturday 24<sup>th</sup> September (Tuesday to Saturday), led by Matt Garner of Southampton City Council Archaeology Unit and involving students and volunteers as in previous years. It is still possible to volunteer to work there although accommodation on the site is already booked up and you would need to find your own place to stay nearby. Please contact Matt before 19<sup>th</sup> August, at the Unit 8083 2937 or 07949 758148, or online [matthew.garner@southampton.gov.uk](mailto:matthew.garner@southampton.gov.uk).
