

STOP PRESS

Dear WARG Members,

The committee has been discussing the current health advice on public gatherings.

We are all aware that one or two of our members may fall into the 'high risk' category of age and poor health, for response to the Covid19 virus. Consequently, being mindful of our duty of care to the membership, it is with great regret that we have decided, in the interest of protecting everyone; we should cancel the April and May meetings. (April 6th – big Dig update & May 11th Power by Design)

We shall of course make every attempt to reschedule these talks.

At present we are monitoring health advice and will update you with regards to future events nearer the time.

If necessary we shall reschedule to entire 2020 programme and the Summer Newsletter will be issued in July as usual.

Please take care and stay safe.

With very best wishes from Steve Old and the WARG Committee.
